

Application No. 10/612,364

Supplemental Amendment

*REMARKS/ARGUMENTS*

In supplementation of the Amendment filed July 22, 2005, Applicant requests further amendment.

In this Amendment a typographical error in a specification change is corrected.

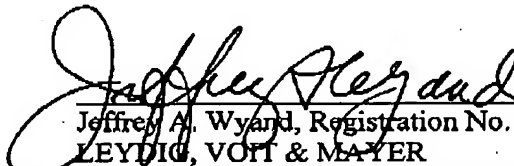

Claims 1-11 and 18, claims that were withdrawn from consideration, are cancelled. Thus, upon entry of this Amendment claims 12-17 and 19-21 remain pending.

A limitation is added claim 12 that was intended to be added in the Amendment of July 22, 2005, further specifying a relationship between the operation of the fourth and first transistors.

The comments regarding the prior art rejection and other issues presented in the Amendment filed July 22, 2005 are maintained and incorporated by reference but are not repeated.

Prompt and favorable action on the remaining claims is earnestly solicited, including rejoining claims 14, 15, and 17 to the prosecution as depending from claim 12. Likewise, claims 19-21, which were newly added in the Amendment filed July 22, 2005 should be allowed with claim 12.

Respectfully submitted,
